

# BUNNYGIRL WHITEPAPER

NOVEMBER 2021

[BUNNYGIRLCOIN.COM](https://bunnygirlcoin.com)

# ABOUT BUNNYGIRL

---

BunnyGirl is a project that was introduced in Q4 2021 as a community driven token on the Binance Smart Chain.

BunnyGirl intends to become a DAO in the near future where token holders gain access to exclusive token and NFT airdrops. Furthermore, a community vault will be created where members of BunnyGirl decide on which assets to invest in. Profits from the vault will be shared among token holders.

BunnyGirl was founded by two people who have chosen not to reveal their identities for now. The team consists of a leading developer and a head of marketing (a writer also responsible for content creation and social media management).

# TOKENOMICS

---

Bunnygirl is a BSC token with powerful yet sustainable incentive based tokenomics.

All buys and sells of Bunnygirl on Pancakeswap have a 10% fee. Tax is going 100% towards marketing and further development of future use cases of Bunnygirl.

Max buy and sell per transaction is 1% of the total supply which prevents from individual investors having a large portion of the circulating supply. This aims to decrease the volatility of the token and increase the trust of investors.

Token supply: 100 Trillion  
Starting price: : 0.0000000001  
Team Tokens: None  
Launch type: Fair launch  
Initial liquidity: 10000\$  
Tax / liquidity fee: 10%  
Slippage: 11-14%

## DAO

BunnyGirl intends to become a DAO in the near future where token holders gain access to exclusive token and NFT airdrops. Furthermore, a community vault will be created where members of BunnyGirl decide on which assets to invest in. Profits from the vault will be shared among token holders.

## PRIVATE ECO-SYSTEMS

BunnyGirl's DAO intends to provide incentives for investors to hold onto their tokens. Future tokens will be launched which will be airdropped to holders from a 0.1% total supply threshold on. These tokens will be used in our private eco-system of NFTs and the BunnyVerse. How these tokens can be used and how passive income will be provided using NFTs will be declared in the next chapter.

## Future PARTNERS

BunnyGirl is constantly looking for high quality partners to provide value to its community. These partners will include NFT collections, celebrities and influencers.

## NFTS

---

BunnyGirl will launch an exclusive NFT collection in the near future which will be purchasable using the BunnyGirl token. These NFTs will vary in rarity and each rarity will have a different benefit to the holder of it. Benefits include, but are not limited to token airdrops, NFT airdrops, physical items, exclusive events and passive income tokens.

Details to the NFT launch will be published later this year.

## COMMUNITY

---

The community is a core ingredient to the success of this project. Hence, competitions, challenges and other incentive programs will be launched regularly. Furthermore, members most active members or members who have brought substantial value to the project will be rewarded with future token airdrops, NFTs or BNB rewards. Details will always be published in the Telegram chat.

# Why invest in BunnyGirl?

---

## **Fair launched**

Bunnygirl is fair launched and limits the max wallet and transaction size to 1% of the circulating supply. This prevents whales from buying up a large portion of the circulating supply and guarantees a less volatile price action for all investors involved.

## **Community powered**

Bunnygirl is fully decentralized and owned by its fun, vibrant community. Our enthusiast volunteers welcome and embrace diverse perspectives to build Bunnygirl into the best community in crypto.

## **Secure and safe**

The Bunnygirl smart contract has been verified and its Liquidity Pool is locked. That means next to zero risk for our users and community from potential bad actors .

## LAST WORDS

---

Our Whitepaper will be frequently updated in regards to additions of features or adjustments to the roadmap. Few secret features might be included and have yet to be announced. Join our [Telegram](#) chat to receive news about any Whitepaper, roadmap or development updates.
